

**Computing**

**Scheme of Work**

---

**Year 2 Overview**

# Introduction

This document contains an overview of the units included in the Purple Mash Computing Scheme of Work for Year 2.

For detailed lesson plans and other information, see the documents for the individual units themselves.

Most lessons assume that children are logged onto Purple Mash with their own individual usernames and passwords so their work will be saved in their own folders automatically and can be easily reviewed and assessed by the class teacher. If children have not used and logged onto Purple Mash before then they will need to spend some time before starting these lessons, learning how to do this. Children can be supported by having their printed logon cards (produced using [Create and Manage Users](#)) to hand.

Lesson plans also make use of the facility within Purple Mash to set activities for pupils which they can then complete and hand-in online (2Dos). This enables you to assess their work easily as well as distribute resources to all pupils. If children have not opened 2Dos before then they will need more detailed instructions about how to do this. A teacher's guide to 2Dos can be found in the teacher's section: [2Dos Guide](#).

If you are currently using a single login per class or group and would like to set up individual logins yourself, then please see our guide to doing so at [Create and Mange Users](#). Alternatively, please contact support at [support@2simple.com](mailto:support@2simple.com) or 0208 203 1781.

To force links within this document to open in a new tab, right-click on the link then select 'Open link in new tab'.

## Differentiation

Where appropriate, guidance has been given on how to simplify tasks within lessons or challenge those who are ready for more stretching tasks.

# Year 2 Unit Overview

## Unit 2.1 – Coding

Lesson	Aims	Success Criteria
1	To introduce algorithms.	<ul style="list-style-type: none"> <li>Children can explain that an algorithm is a set of instructions.</li> <li>Children can explain that for the computer to make something happen, it needs to follow clear instructions.</li> <li>Children can show their computer program and point out the algorithms they created.</li> </ul>
2	To use Repeat and Timer commands.	<ul style="list-style-type: none"> <li>Children can explain how to use the following terms in a computer program: Command, Repeat, Input, Output, Event, Collision Detection and Timer.</li> <li>Children can create a computer program including at least four of the above new coding vocabulary terms.</li> </ul>
3	Debugging.	<ul style="list-style-type: none"> <li>Children can explain what debug (debugging) means.</li> <li>Children can explain what they did so that their computer program did not work.</li> <li>Children can debug simple programs.</li> </ul>
4	To explore the possible actions of different types of objects.	<ul style="list-style-type: none"> <li>Children can create a computer program using different objects.</li> <li>Children can predict what the objects in classmates' programs will do, based on my knowledge of the objects' limitations, e.g. a turtle can only move in specific ways.</li> <li>Children can explain how they know that certain objects can only move in certain ways.</li> </ul>
5	To create a more complex program to retell a story, using 2Code.	<ul style="list-style-type: none"> <li>Children can plan and use algorithms in programs successfully to achieve an end result.</li> <li>Children can code a program using a variety of objects, actions, events and outputs successfully.</li> </ul>

## Unit 2.2 – Online Safety

Lesson	Aims	Success Criteria
1	<p>To know how to refine searches using the search tool.</p> <p>To know how to share work electronically using the display boards.</p> <p>Have some knowledge and understanding about sharing work on Purple Mash and the Internet.</p>	<ul style="list-style-type: none"> <li>Children can use the search facility to refine searches on Purple Mash by year group and subject.</li> <li>Children can share the work they have created to a display board.</li> <li>Children understand that the teacher approves work before it is displayed.</li> <li>Children are beginning to understanding how things can be shared electronically for others to see both on Purple Mash and the Internet.</li> </ul>
2	<p>Using 2email respond characters.</p> <p>How do we talk to others when they aren't there in front of us?</p>	<ul style="list-style-type: none"> <li>Children understand how 2Repond can teach about how to use email.</li> <li>Children can open and send an email to a 2Respond character.</li> <li>Children have discussed their own experiences and understanding of what email is used for.</li> </ul>

		<ul style="list-style-type: none"> <li>Children have discussed what makes us feel happy and what makes us feel sad?</li> </ul>
--	--	--

## Unit 2.3 - Spreadsheets

Lesson	Aims	Success Criteria
1	Reviewing prior use of spreadsheets	<ul style="list-style-type: none"> <li>Children can explain what rows and columns are in a spreadsheet.</li> <li>Children can open, save and edit a spreadsheet.</li> <li>Children can add images from the image toolbox and allocate them a value.</li> <li>Children can add the count tool to count items.</li> </ul>
2	Copying and Pasting Totalling tools	<ul style="list-style-type: none"> <li>Children can use copying a pasting to help make spreadsheets.</li> <li>Children can use tools in a spreadsheet to automatically total rows and columns.</li> <li>Children can use a spreadsheet to solve a mathematical puzzle.</li> </ul>
3	Using a spreadsheet to add amounts	<ul style="list-style-type: none"> <li>Children can use images in a spreadsheet.</li> <li>Children can work out how much they need to pay using coins by using a spreadsheet to help calculate.</li> </ul>
4	Creating a table and block graph	<ul style="list-style-type: none"> <li>Children can create a table of data on a spreadsheet.</li> <li>Children can use the data to create a block graph manually.</li> </ul>

## Unit 2.4 – Questioning

Lesson	Aims	Success Criteria
1	To show that the information provided on pictogram is of limited use beyond answering simple questions.	<ul style="list-style-type: none"> <li>Children understand that the information on pictograms cannot be used to answer more complicated questions.</li> </ul>
2	To use YES or No questions to separate information.	<ul style="list-style-type: none"> <li>Children have used a range of yes/no questions to separate different items.</li> </ul>
3	To construct a binary tree to separate different items.	<ul style="list-style-type: none"> <li>Children understand what is meant by a binary tree.</li> <li>Children have designed a binary tree to sort pictures of children.</li> </ul>
4	Use 2Question (a binary tree) to answer questions.	<ul style="list-style-type: none"> <li>Children understand that questions are limited to 'yes' and 'no' in a binary tree.</li> <li>Children understand that the user cannot use 2Question to find out answers to more complicated questions.</li> <li>Children have matched the 2Simple Avatar pictures to names using a binary tree.</li> </ul>
5	To use a database to answer more complex search questions. To use the search tool to find information.	<ul style="list-style-type: none"> <li>Children understand what is meant by a database.</li> <li>Children have used a database to answer simple and more complex search questions.</li> </ul>

## Unit 2.5 – Effective Searching

Lesson	Aims	Success Criteria
1	To understand the terminology associated with searching.	<ul style="list-style-type: none"> <li>Children can recall the meaning of key internet terms.</li> <li>Children have completed a quiz about the Internet.</li> </ul>
2	To gain a better understanding about searching on the Internet.	<ul style="list-style-type: none"> <li>Children can identify the basic parts of a web search engine search page. <ul style="list-style-type: none"> <li>Children have learnt to "read" a web search results page.</li> <li>Children can search for answers to a quiz on the internet.</li> </ul> </li> </ul>
3	To create a leaflet to help someone search for information on the Internet.	<ul style="list-style-type: none"> <li>Children have created a leaflet to consolidate their knowledge of effective Internet searching.</li> </ul>

## Unit 2.6 – Creating Pictures

Lesson	Aims	Success Criteria
1	To be introduced to 2Paint A Picture. To look at the impressionist style of art (Monet, Degas, Renoir).	<ul style="list-style-type: none"> <li>Children can explain what is meant by impressionist art.</li> <li>Children can use 2Paint a Picture to create art based upon this style.</li> </ul>
2	To recreate pointillist art and look at the work of pointillist artists such as Seurat.	<ul style="list-style-type: none"> <li>Children can explain what pointillism is.</li> <li>Children can use 2Paint a Picture to create art based upon this style.</li> </ul>
3	To look at the work of Piet Mondrian and recreate it using the Lines template.	<ul style="list-style-type: none"> <li>Children can describe the main features of Piet Mondrian's work.</li> <li>Children can use 2Paint a Picture to create art based upon his style.</li> </ul>
4	To look at the work of William Morris and recreate it using the Patterns template.	<ul style="list-style-type: none"> <li>Children can describe the main features of art that uses repeating patterns.</li> <li>Children can use 2Paint a Picture to create art by repeating patterns in a variety of ways.</li> <li>Children can combine more than one effect in 2Paint a Picture to enhance their patterns.</li> </ul>
5	To explore surrealism and eCollage	<ul style="list-style-type: none"> <li>Children can describe surrealist art.</li> <li>Children can use the eCollage function in 2Paint a Picture to create surrealist art using drawing and clipart.</li> </ul>

## Unit 2.7 – Making Music

Lesson	Aims	Success Criteria
1	To be introduced to making music digitally using 2Sequence. To explore, edit and combine sounds using 2Sequence.	<ul style="list-style-type: none"> <li>Children understand what 2Sequence is and how it works.</li> <li>Children have used the different sounds within 2Sequence to create a tune.</li> <li>Children have explored how to speed up and slow down tunes.</li> <li>Children understand what happens to the tune when sounds are moved.</li> </ul>
2	To add sounds to a tune they've already created to change it. To think about how music can be used to express feelings and create tunes which depict feelings.	<ul style="list-style-type: none"> <li>Children have added sounds to a tune they've already created to change it.</li> <li>Children have considered how music can be used to express feelings.</li> <li>Children can change the volume of the background sounds.</li> <li>Children have created two tunes which depict two feelings.</li> </ul>
3	To upload a sound from a bank of sounds into the Sounds section. To record their own sound and upload it into the Sounds section. To create their own tune using the sounds which they have added to the Sounds section.	<ul style="list-style-type: none"> <li>Children have uploaded and used their own sound chosen from a bank of sounds.</li> <li>Children have created, uploaded and used their own recorded sound.</li> <li>Children have created their own tune using some of the chosen sounds.</li> </ul>

## Unit 2.8 – Presenting Ideas

Lesson	Aims	Success Criteria
1	To explore how a story can be presented in different ways.	<ul style="list-style-type: none"> <li>Children have examined a traditional tale presented as a mind map, as a quiz, as an e-book and as a fact file.</li> <li>Children know that digital content can be represented in many forms.</li> </ul>
2	To make a quiz about a story or class topic.	<ul style="list-style-type: none"> <li>Children have made a quiz about a story using 2Quiz.</li> <li>Children can talk about their work and make improvements to solutions based on feedback received.</li> </ul>

3	To make a fact file on a non-fiction topic.	<ul style="list-style-type: none"> <li>Children have extracted information from a 2Connect file to make a publisher fact file on a non-fiction topic.</li> <li>Children have added appropriate clipart.</li> <li>Children have added an appropriate photo.</li> <li>Children know that data can be structured in tables to make it useful.</li> </ul>
4	To make a presentation to the class.	<ul style="list-style-type: none"> <li>Children can use a variety of software to manipulate and present digital content and information.</li> <li>Children can collect, organise and present data and information in digital content.</li> <li>Children can create digital content to achieve a given goal by combining software packages.</li> </ul>

## Key Stage 1 English National Curriculum Objectives

National Curriculum Objective	Strand	Units Covered
Understand what algorithms are; how they are implemented as programs on digital devices; and that programs execute by following precise and unambiguous instructions.	Computer Science	2.1
Create and debug simple programs	Computer Science	2.1
Use logical reasoning to predict the behaviour of simple programs.	Computer Science	2.1
Use technology purposefully to create, organise, store, manipulate and retrieve digital content	Information Technology	2.3, 2.4, 2.5, 2.6, 2.7, 2.8
Recognise common uses of information technology beyond school	Digital Literacy	2.5 and in other units when appropriate.

Use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies.	Digital Literacy	2.2 and in all units when appropriate.
--	------------------	--

## Welsh Digital Competence Framework

Strand	Learners are able to:	Units Covered
Citizenship	Understand that information put online leaves a digital footprint or trail	2.2, 2.5
	Identify the steps that can be taken to keep personal data and hardware secure.	2.2
	Begin to identify the advantages and disadvantages of digital media and devices on their lives.	2.2
	Talk about the advantages and disadvantages of digital media in their lives.	2.2 and other units where relevant
	Add their name and the date to work they have created and give reasons why this is important.	2.2 and most units
	Use digital technology to communicate and connect with others locally and globally.	2.8
Interacting and collaborating	Send simple online communication in one or more languages from a single user account.	Email is introduced in unit 3.5. Online communication between teachers and pupils is facilitated by Purple Mash commenting and 2Dos used in many units.
	Use an online collaborative platform to create or edit a file in one or more languages.	2.8 and many Purple Mash activities.
	Save work using an appropriate file name.	All units

	Use an icon to open a saved file.	All units
Producing	Plan how to complete a task in relation to identified success criteria.	2.1, 2.3, 2.4, 2.5, 2.6, 2.7, 2.8
	Use keywords to search for specific information to solve a problem.	2.5
	Create and edit multimedia components in order to develop text, image, sound, animation and video for a range of tasks in one or more languages	2.6, 2.7, 2.8
	Identify what worked and what didn't, giving some of the reasons for their thoughts.	Most units
Data and Computational Thinking	Explain to others how a designed solution works,	2.1
	Predict the outcome of simple sequences of instructions.	2.1
	Create a simple solution that tests an idea.	2.1, 2.3
	Collect and organise data into groups	2.4
	Extract information from simple tables and graphs.	2.3, 2.4, 2.8
	Record data collected in a variety of suitable formats.	2.3, 2.4

# Northern Ireland Levels of Progression and Desirable Features

	Objective	Units Covered
Explore	Access, select, interpret and research information from safe and reliable sources.	2.2, 2.5, 2.8
	Investigate, make predictions and solve problems through interaction with digital tools.	2.1, 2.3, 2.4
Express	Create, develop, present and publish ideas and information responsibly using a range of digital media and manipulate a range of assets to produce multimedia.	Variety of units using different tools
Exchange	Communicate safely and responsibly using a range of contemporary digital methods and tools, exchanging, sharing, collaborating and developing ideas digitally.	2.3, 2.4, 2.6, 2.7, 2.8 Use of 2Blog and Display boards to share work
Evaluate	Talk about, review and make improvements to work, reflecting on the process and outcome, and consider the sources and resources used, including safety, reliability and acceptability.	All units
Exhibit	Manage and present their stored work and showcase their learning across the curriculum, using ICT safely and responsibly.	All Units

Desirable Features	Units Covered
Desktop Publishing	2.8
Film and Animation	2.6, 2.7
Interactive Design	2.1
Managing data	2.3, 2.4
Music and Sound	2.7, 2.6
Online Communication	2.2
Presenting	2.8
Working with Images	2.6

# Scottish Curriculum for Excellence (First Level)

Technological developments in society	Units Covered
By exploring and using technologies in the wider world, I can consider the ways in which they help.	Discussed throughout units where relevant.
I can work with others to generate, discuss and develop imaginative ideas to create a product of the future.	Many units use these skills.
By exploring current news items of technological interest, I have raised questions on the issues and can share my thoughts.	2.2, 2.5, 2.8
Throughout all my learning, I take appropriate action to ensure conservation of materials and resources, considering the impact of my actions on the environment.	Can be emphasised through all units.
ICT to enhance learning	Units Covered
As I extend and enhance my knowledge of features of various types of software, including those which help find, organise, manage and access information, I can apply what I learn in different situations.	By covering a variety of units.
I can access, retrieve and use information from electronic sources to support, enrich or extend learning in different contexts.	By covering a variety of units.
I explore and experiment with the features and functions of computer technology and I can use what I learn to support and enhance my learning in different contexts.	By covering a variety of units.
I can create, capture and manipulate sounds, text and images to communicate experiences, ideas and information in creative and engaging ways.	By covering a variety of units.
Computing science contexts for developing technological skills and knowledge	Units Covered

I am developing my knowledge and use of safe and acceptable conduct as I use different technologies to interact and share experiences, ideas and information with others.	2.2
I am developing problem-solving strategies, navigation and co-ordination skills, as I play and learn with electronic games, remote control or programmable toy.	2.1
<b>Craft, design, engineering and graphics contexts for developing technological skills and knowledge</b>	<b>Units Covered</b>
Having evaluated my work, I can adapt and improve, where appropriate, through trial and error or by using feedback.	2.1, 2.8
I am developing an interest, confidence and enjoyment in using drawing and colour techniques, manually or electronically, to represent ideas in different learning situations	2.6
I explore materials, tools and software to discover what they can do and how I can use them to help solve problems and construct 3D objects which may have moving parts.	2.1, 2.3
