

FIRST AID POLICY

**SAINTS PETER AND PAUL
CATHOLIC PRIMARY SCHOOL**

2022-23

First Aid Policy

Policy Statement

This policy is designed to promote the health, safety and welfare of pupils, staff and visitors to this school through the provision of first aid equipment and trained personnel in accordance to the requirements of the Health and Safety (First Aid) Regulations 1981.

The first aid appointed lead is provided by Ronni O'Keefe

The Aims of the Policy

The aim of providing first aid is to save lives and to ensure that minor injuries and illnesses do not escalate into major ones. The aim of this policy is to ensure that:

- We are compliant with all relevant legislation
- a person is appointed to take charge of first aid arrangements
- staff nominated as first aiders receive up-to-date training by a suitably recognised organisation
- suitably stocked and marked first aid containers are available at all appropriate locations throughout the school
- all members of staff are fully informed with regard to the first aid arrangements
- all staff are aware of hygiene and infection control procedures
- written records are maintained of any accidents, injuries, diseases or dangerous occurrences. Reports are undertaken as required under the reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013.
- first aid arrangements are regularly reviewed and assessed to maintain adequate first aid provision

Procedure

First aid provision will be available at all times while people are on the school premises and also off the premises while on school visits.

Risk Assessment

In accordance with the school's Health and Safety Policy, the annual risk assessment of all school buildings and facilities will pay particular attention to:

- Practical activities
- The use of machinery
- Storage of hazardous substances
- The use of equipment for sports and physical education

From this assessment a judgment will be made as to how many trained first aiders are required to provide an effective and safe response to accidents and injuries.

A judgment will also be made as to how many fixed and portable first aid containers should be available and where they are to be located.

Specific consideration will be given to staff or pupils who have special health needs or disabilities.

In determining the level of provision, SLT will consider:

- the provision during lunch times and breaks
- the adequacy of the provision to account for staff absences
- the provision of first aid for off-site activities and school trips
- the provision for practical lessons and activities, e.g. science, pond dipping, forest school and physical education.

Qualification and Training

All school first aiders hold a certificate of competence that is valid for three years.

Refresher training and retesting of competence will be arranged at least three months before certificates expire.

The school will consider interim refresher training to maintain first aiders' basic skills and keep them up to date with changes, where necessary, e.g. adrenaline pen, CPR and defibrillator training.

Early Years Foundation Stage (EYFS).

All newly qualified staff with Level 2 or 3 childcare qualification will also hold a current Paediatric First Aid or Emergency Paediatric First Aid Certificate.

At least one person who has a current Paediatric First Aid Certificate will be on the premises and available at all times when children are present and will accompany children on outings.

As of the 1st of September 2021, Paediatric First Aid Courses should now also incorporate basic training in the safe use of Adrenaline Auto-Injectors. Therefore, the school will check our training provider meets Early Years Foundation Stage Statutory Criteria. Annex A

First Aid Materials, Equipment and Facilities

First Aid container will be:

- marked with a white cross on a green background
- located near to hand washing facilities
- stocked in accordance with HSE recommendations.

Portable first aid containers will be available for all school trips and for sporting and other activities that take place over 200 metres from school buildings.

Where it is known that staff or pupils engaged in an out of school activity have specific health needs or a disability, the contents of the first aid container will include the resources to meet these specific needs, e.g. a supply of insulin or an adrenaline-pen.

Information and Notices

First aid notices giving the location of first aid containers and the names of members of staff who are certificated first aiders will be prominently displayed around the building.

The EYFS Framework requires a list of staff first aiders to be displayed or staff Paediatric certificates displayed and made available to parents.

The school will make every effort to ensure that first aid notices are clear and easily understood by all.

Information on the school's first aid provision will be included in the staff handbook.

Information on the school's first aid provision will be provided in the induction pack given to new and temporary staff.

Hygiene and Infection Control

All staff will:

- follow basic hygiene procedures
- be aware as to how to take precautions to avoid infections, e.g. HIV and AIDS.

All staff will have access to single use disposable gloves and hand washing facilities.

The school will ensure adequate and appropriate stock levels of PPE is provided for all staff:

- Gloves – Are to be worn to protect your hands
- Face Masks/Coverings – Are worn to protect/prevent the spread of a respiratory virus when close contact with another person cannot be avoided.
- Eye Protection or Shields – Are worn when there is a risk of bodily fluids splashing up into your face.
- Aprons – Are worn to protect your clothing from becoming soiled.

Disposable gloves will be worn at all times when dealing with blood or other body fluids or when disposing of dressings or other potentially contaminated equipment.

Instructions on the disposal of all used dressings or equipment will be included in the first aid containers

Recording Accidents and Injuries

All accidents and injuries will be recorded in a written or electronic form and such records will be kept for a minimum of three years.

In some cases, a record maybe kept longer, if the injury is deemed significate enough to imply the injury may cause the student problems in the future as a student has up until their 21st birthday to make a claim.

The record of any first aid treatment given by first aiders and other appointed persons will include:

- the date, time and place of the incident

- the name and class of the injured or ill person
- details of the injury or illness and what first aid was given
- what happened to the student or member of staff immediately afterwards (e.g. went home, resumed normal duties, went back to class or went to hospital)
- the name and signature of the first aider or person dealing with the incident.

Serious or significant incidents will be reported to parents by direct contact with the parent or carer.

In an emergency involving outside medical professionals or services the Headteacher or the appointed person will follow the school's established procedures for contacting a parent or carer.

Reporting Accidents to the HSE

The following types of accidents will be reported to the HSE as required under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013:

<http://www.hse.gov.uk/pubns/edis1.pdf>

Accident - Employees

- accidents resulting in death or major injury (including those that result from physical violence)
- accidents that prevent the injured person from doing their normal work for more than seven days
- work-related disease that affects an employee and that a doctor confirms in writing.
- Fractures, other than to fingers, thumbs and toes
- Amputation
- Any injury likely to lead to permanent loss of sight or reduction in sight
- Any crush injury to the head or torso causing damage to the brain or internal organs
- Serious burns (including scalding) which cover more than 10% of the body or cause significant damage to the eyes, respiratory system or other vital organs.
- Any scalping requiring hospital treatment
- Any loss of consciousness caused by head injury or asphyxia.
- Any other injury arising from working in an enclosed space which: leads to hypothermia or heat-induced illness or requires resuscitation or admittance to hospital for more than 24 hours.

Accident - Pupils and Visitors

- The death of the person which arose out of or in connection with a work activity
- An injury that arose out of or in connection with a work activity and the person is taken directly from the scene of the accident to the hospital for treatment.

The responsible person at the school will consider whether the incident was caused by:

- a failure in the way a work activity was organised (e.g. inadequate supervision of a field trip);
- the way equipment or substances were used (e.g. lifts, machinery, experiments etc); and/or

- the condition of the premises (e.g. poorly maintained or slippery floors)

Submitting a Report and Accident Investigation

Any incident subject to RIDDOR, will be reported to HSE's Incident Contact Centre without delay. The Headteacher/Compliance Education is responsible for reporting all incidents subject to RIDDOR.

An accident investigation is performed in order to prevent similar accidents in the future.

Additional advice and guidance regarding what is reportable under RIDDOR, along with support in investigating serious incidents is available from Compliance Education if required.
